Subject: RE: [richonguzman/LoRa_APRS_iGate] Impossible to change a map icon - version 2025.03.20 (Issue #290)

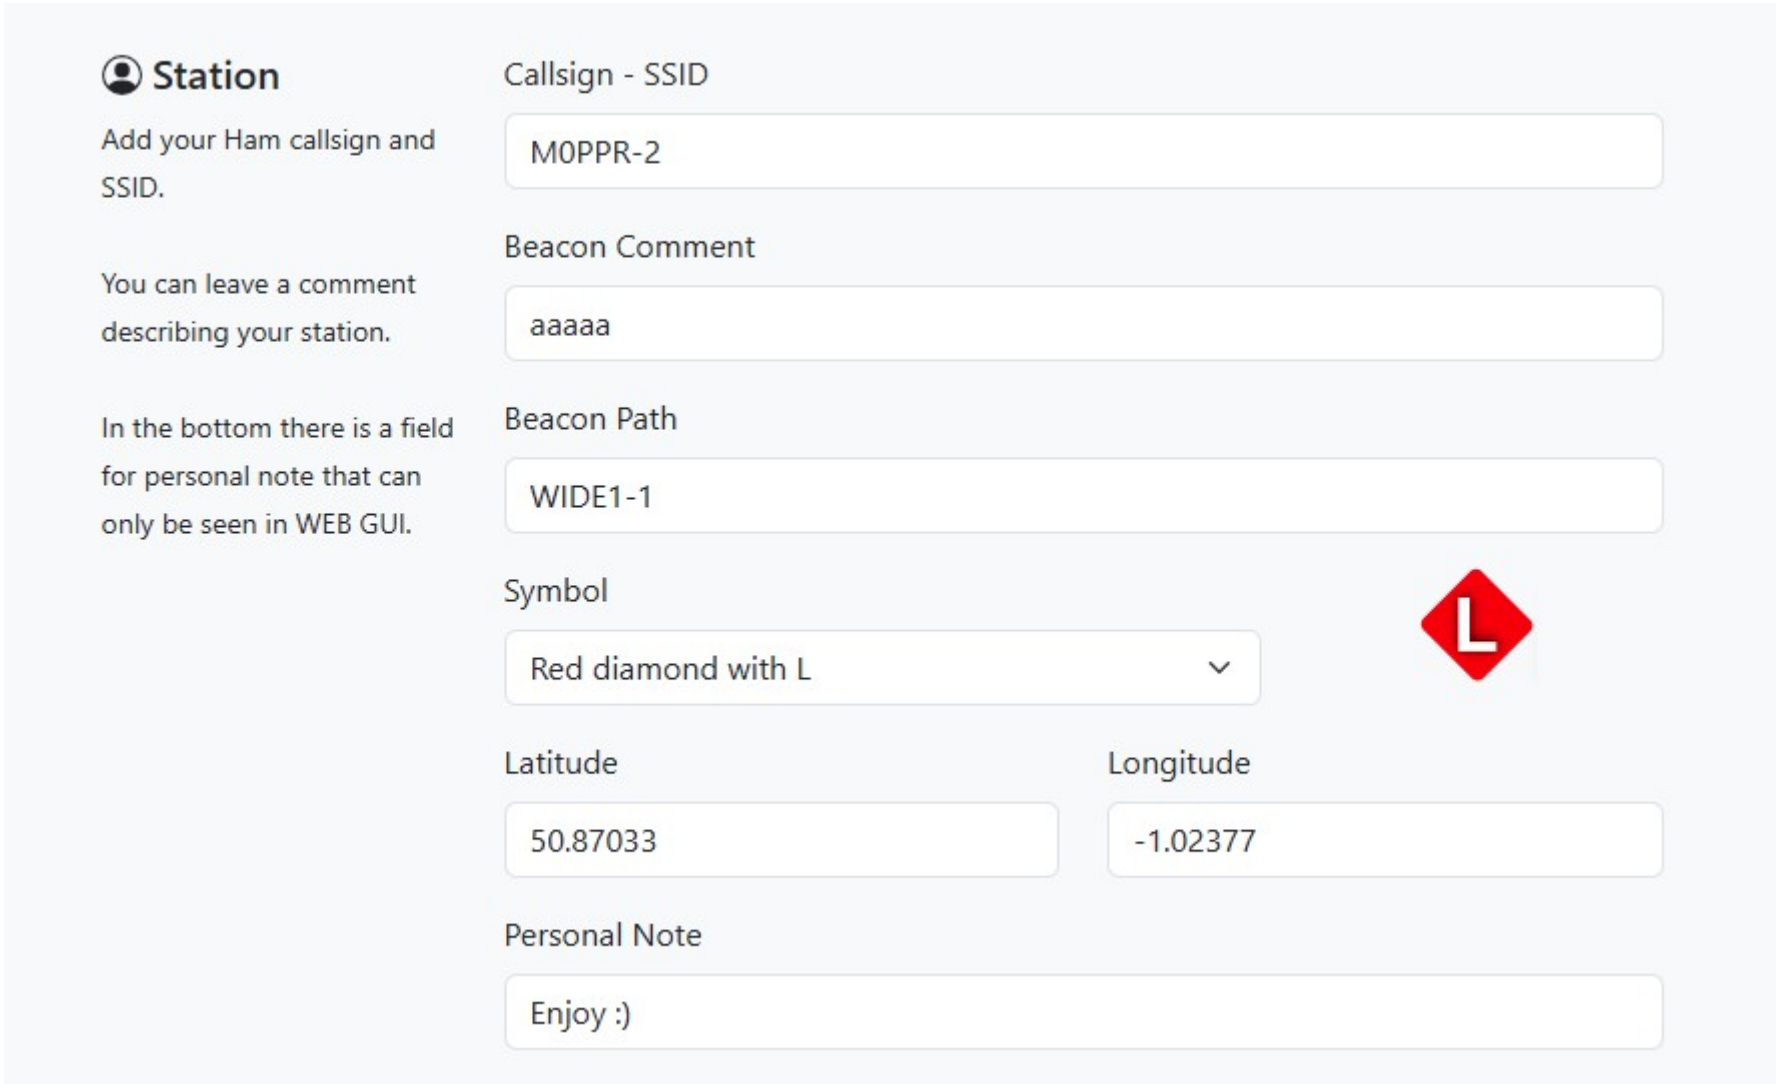

Hi, thank you for your answer:

I hope you will see pictures I attached here.

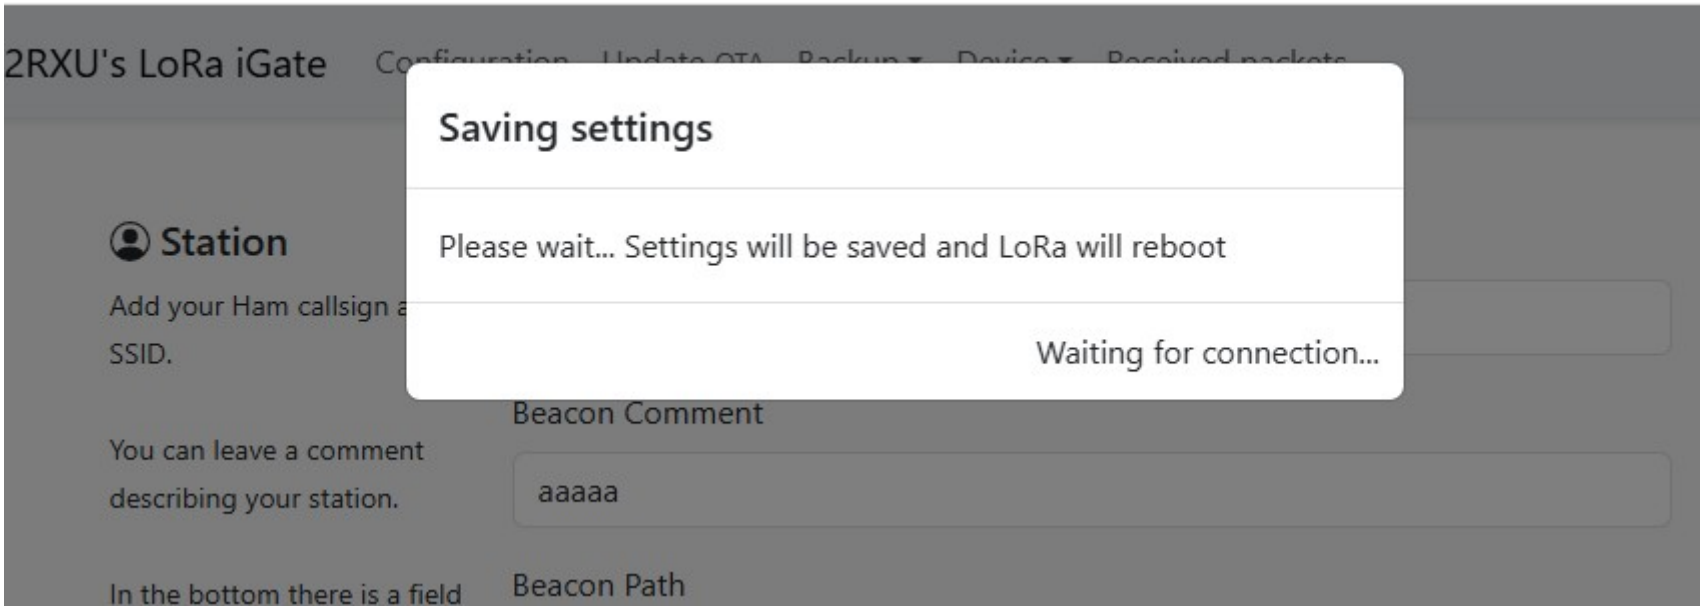

Step one – current status:

Step 2 – I change icon and beacon description:

Step 3 – I press save:

Step 4 – beacon description is changed, but icon is not

Station

Add your Ham callsign and SSID.

You can leave a comment describing your station.

In the bottom there is a field for personal note that can only be seen in WEB GUI.

Callsign - SSID

M0PPR-2

Beacon Comment

aaaaa

Beacon Path

WIDE1-1

Symbol

Blue circle with L

Latitude

50.87033

Longitude

-1.02377

Personal Note

Enjoy :)

WiFi Access

**richonguzman** left a comment (richonguzman/LoRa_APRS_iGate#290)

change what description?

blue symbol is ment only to have a station that sends Wx data.... maybe this is missing from you?
